OVERVIEW

The Zoho Book to Xero extension seamlessly integrates your accounting line items in Zoho Books with Xero, ensuring error-free and quicker data integration between the two softwares.

Key features

Easily customised field mapping, sync direction, and modules

Auto-updates of records in Zoho Books when pushed to Xero

View all records synced and error descriptions, if applicable, in the sync log, so you can update records that need to be synced.

Use

Sync your invoice, sales order and quote modules with Quickbook

PRE INSTALLATION STEPS

No Installation Link Available. Need to contact Crmsocius.
